Welcome back

We extend a warm welcome to all new students, faculty, staff, and lifelong learners on behalf of the GU Library. If you're on campus, please visit Library located in the Lower Level. There, you'll encounter a friendly and knowledgeable staff, as well as a collection of recently published books available for checkout. In addition to our on-site resources, we offer a wealth of information and services online. We are also delighted to provide mail delivery services for items such as books and media. This edition of our newsletter, 'Check Out the Library,' introduces some of our new staff members who are dedicated to meeting your information needs.

We will keep you informed about our ongoing developments and eagerly anticipate the opportunity to gather once again in the Library with all of you. Until that time, please take care and don't hesitate to reach out us if you require any assistance.

Galgotias University has been listed in the band excellent for "Innovation & Entrepreneurship Development" under universities & deemed to be university (Private/self-financed/technical) in the AIIRA ranking 2021.

School of Business Galgotias University Ranked 2 in North India by top B-schools under Private Universities (Zonewise)

Galgotias University has been awarded IAR placement audit (5 stars) indicating HIGHEST performance in placing its students.

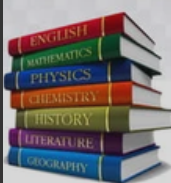

Extending Digital Reach in GU Library

The digital expansion in university libraries represents a profound shift in how information is accessed and utilized in the academic world. This transformation aligns with the evolving needs of students and faculty in an increasingly digitized and interconnected global academic environment. In pursuit of this goal, the library has incorporated several new electronic databases into its digital collection :

Edu Gorilla Online- EduGorilla specializes in offering vernacular test series to meet the needs of students preparing for state-level and less widely-recognized competitive examinations.

GALE(INFOTRAC MEDICAL COLLECTION)- InfoTrac Medical Collection (IMedC) is a carefully selected list of journals covering all streams of Medical Science. This innovative full-text online resource allows users to search articles instantly by title, subject, publication, country etc.

What is happening with traditional learning resources?

- We have more sources! The traditional resources are losing exclusivity.
- But digital resources are not the replacement. They are the expansion!

Publications/Trainings/Workshops/Conferences By library Professionals

Dr. Debal C Kar - Bangkok, Thailand-8 -13 November 2022: 5 days To Chair a session and speak as Keynote speaker in 16th International Conference on Webometrics, Informetrics and Scientometrics (WIS) & 21st COLLNET Meeting, November 10-12, 2022, Chulalongkorn University, Bangkok, Thailand organised by Society for Library Professionals, and Asia Community, Special Libraries Association, Office of Academic Resources (OAR), Chulalongkorn University, Bangkok, Thailand and Thai Library Association.

Dr. Debal C Kar- Bangkok,Thailand. 13 -18 November 2022, 5 days Participated in a Workshop and a meeting of IFLA's Asia-Oceania Regional Division Committee on the implementation of IFLA's strategy and plans in the Asia-Oceania region, on 14-17 November 2022 in Bangkok, Thailand.

Dr. Debal C Kar- Cebu, Philippines 20-25 February 2023,To Chair a session and speak as Keynote speaker in 8th International Conference of Asian Special Libraries, February 21-24, 2023, University of San Corlos, Cebu, Philippines, organised by Asia Community, Special Libraries Association, Association of Special Libraries Association of Philippines, & Cebu Librarians Association.

The 11th International Library and Information Professionals Summit has been a landmark now in the ILIPS Series. As you know the LIPS series was started in 2012 by Society for Library Professionals and had been organized at International Level since 2016.

The ILIP Summit on New and Innovative Services in Digital Era: Services and Practices, has brought together over 221 professionals from 11 countries across the globe, North and South, to share their experiences, to learn from one another and to debate the future development of Libraries in context of ownership to access. Financial support was provided by RRRLF, DRDO, CSIR, Society for Library Professionals, CELECT, Turnitin, and EBC/SCC Online for ILIPS 2023.

The conference began with inauguration and Key Note delivered by Ms Liz Jolly, Chief Librarian, British Library, London with sharing her experiences about British Library.

Followed by Inaugural address delivered by Prof. Ajay Pratap Singh, Director General RRRLF and discussing his experiences about public libraries in India. The inaugural address was given by Barbara Lison, IFLA President. The session also witnessed the address by Prof. K Mallikharjuna Babu, VC, Prof Awadesh Kumar, Pro VC, Prof. Renu Luthra, Advisor to Chancellor of Galgotias University.

The conference was structured with three parallel facilitated technical sessions and presentations to allow all participants to enter into practical discussion. One Plenary Session discussion with eminent speakers from the profession provided particularly interesting insights into the Contemporary issues and SDG. During these two days, the technical sessions sparked an interesting discussion on the themes like Emerging & Innovative Technology Applications in Libraries including Mobile, Web and Semantic Technology Application in Libraries. The sessions also witnessed discussions on subjects like Collection Development and Management in Electronic Age. Intense discussions were made on the issues of Re-envision of Library Spaces, Open Access in Libraries and how to enhance User Satisfaction in Libraries which are the need of the hour.

Each technical sessions also had invited talk by the eminent speakers from the profession. These included talk from Dr. Seema Ramprasad from UK, SLA President 2023..We had an interesting talk by various national and international speakers of Library Science.

During these two days we had the product presentation from our industry partners like Refread, Balani Infotect, Turnitin and others.

The conference was a key activity for Galotatias University both as the first of its biennial conference and as an introduction of this new and growing network of professionals interested in new and innovative services in Libraries. It also helped to look beneath the surface of information science to explore its underpinnings and to learn from the diversity of experience that participants brought to the conference.

The conference is attended by a wide range of participants from information science practitioners, researchers, information technology professionals; content and knowledge managers working in the libraries and others interested in incorporating new library approaches into their work and policies. The conference witnessed a large number of contributed papers in each technical Session. All greatly enjoyed the chance to meet like-minded people from so many countries, the opportunity to network and to learn from one another, and the chance to explore ideas.

In organizing the conference, we aimed to let people learn from one another. Facilitators played an important role in making this possible. Also, I would like to thank everyone who attended for giving so freely of themselves and making the conference so memorable and successful. Hope all made new friends and contacts and this can only contribute to the global development of our profession.

IFLA President, Dr. Barbara Liason

IFLA President, Dr. Barbara Liason, spoke about how IFLA supports the 2030 UN Sustainable Development Goals, and how it is representing libraries around the world. This International organization represents the interest of library and information users. Her presentation included information on IFLA headquarters, regional offices as well as language centers. She also showcased how she is working for IFLA and her motive to achieve during her presidency, her theme is Libraries building a sustainable future, and how IFLA supports libraries to achieve sustainability, such as: Providing sustainable library services, sustainable economy, sustainable library services, social sustainability, environmental management, and commitment to general environmental objectives.

The IFLA motto is based on the idea that libraries should be inspired to create a better future, engage with their communities, enable their users, and connect them with each other. IFLA supports libraries in achieving sustainability by providing resources, such as webinars, awards, and other tools to help libraries reach their goals.
